

ACID RESISTANT TROUSER

Acid Resistant Reflective Work Trousers | SP-WW-AC-002

Description

The Acid Resistant Reflective Work Trousers are chemically treated to repel acid and oil splashes, providing reliable protection in high-risk work environments. Featuring multiple utility pockets, concealed zips, and reinforced stitching, these trousers deliver both practicality and strength. They also include high-visibility reflective strips and a durable construction for safety, comfort, and long-lasting performance.
