

EARPLUGS

Detectable Re-usable Earplugs | SP-HP-007

Description

The SPROM Detectable Re Usable Earplugs provide reliable hearing protection with a soft, washable design and a built in detectable element for safety in food and clean production environments. Offering up to SNR 32 dB noise reduction, they are comfortable for long wear and come with a detachable cord for easy handling.

Key Information

Colors: ●
Size range: Standard
Fabric: High visibility blue Thermoplastic Rubber (TPR) with a detectable metal element.

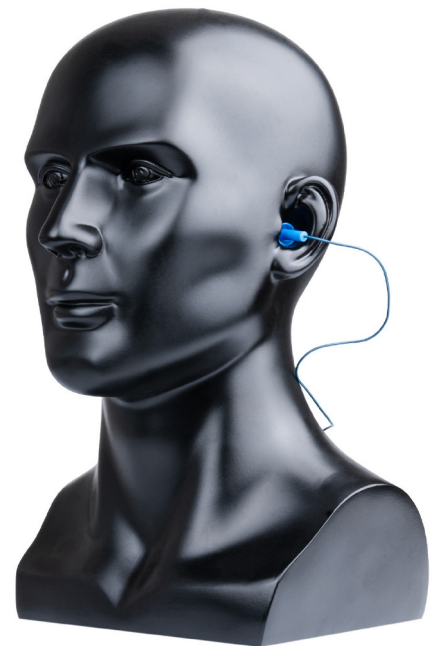

Key Features

- ▶ **Noise Reduction (SNR):** Approximately 32 dB total attenuation (H \approx 33 dB, M \approx 30 dB, L \approx 28 dB).
- ▶ **Design:** Triple flange shape with soft detachable cord for convenience and compatibility with helmets and safety glasses.
- ▶ **Reusable & Washable:** Waterproof, washable, non toxic, and non irritating for long term wear.
- ▶ **Detectable:** Built in detectable component allows detection by screening equipment, suitable for controlled environments.

Warnings

- ▶ Improper fitting will reduce effectiveness and could result in hearing loss.
- ▶ Keep away from infants and children. The earplugs are non-toxic, but may interfere with breathing if stuck in a windpipe.
