

FALL PROTECTION

Full Body Harness Complete | SP-FP-001

Description

The SPROM Full Body Harness is engineered for maximum safety and comfort while working at heights. Built with 44 mm polyester webbing and a high-strength steel dorsal D-ring, it ensures reliable fall arrest. The harness features adjustable shoulder, chest, waist, and leg straps for a customized fit, plus an integrated waist belt for enhanced support during extended work. Equipped with a single leg lanyard and scaffold hook, it provides complete fall protection in one unit.

Key Information

Colors: ● ●
Size : 44 mm
Fabric: 44 mm polyester webbing (25 kN breaking strength)

Key Features
