

FULL FACE MASK

Full Face Mask Respirator Double Cartridge | SP-RP-04

Description

Built for demanding environments, the SPROM Full Face Mask Respirator Double Cartridge provides complete protection from harmful gases, airborne particles, and chemical splashes. Featuring a soft silicone face seal, an anti fog panoramic lens, and a 6 point adjustable head harness, it ensures a secure and comfortable fit for extended use. The built-in fit check button and quick-release buckles make it easy to put on and remove, while the streamlined all-in-one design eliminates the need for separate masks and goggles.

This respirator is designed to be used with replaceable cartridges, available separately in:

- ▶ **A1:** for organic gases and vapours (solvents, paints, fuels)
- ▶ **Large A1:** same protection as A1 but with longer service life and lower breathing resistance
- ▶ **ABEK1:** for multiple gases: **A** = organic, **B** = inorganic, **E** = acidic, **K** = ammonia

Key Information

Colors: ● ●

Fabric: Silicone or EPDM

Size range: Adjustable

Key Features

- ▶ **Face Seal / Mask Body:** Silicone for comfort and secure fit
- ▶ **Lens:** Impact-resistant panoramic polycarbonate, anti-fog
- ▶ **Harness:** 6 point adjustable straps with quick-release buckles
- ▶ **Fit Check:** Built-in feature to verify proper seal
- ▶ **Cartridge Ports:** Dual ports for replaceable gas, vapour, and particulate filters (sold separately)
- ▶ **Standards:** Complies with EN 136:1998 Class 1 full face respirator standards

Applications

Industrial, construction, laboratory, agricultural, painting, pharmaceutical, and emergency response environments requiring protection against dust, fumes, vapours, and airborne contaminants; appropriate cartridges must be selected according to the specific hazards present to ensure effective protection.
