

# BUMP CAP

SPROM Bump Cap | SP-HF-006

## Description

The SPROM Bump Cap is a lightweight protective cap designed to provide basic head protection against minor bumps, knocks, and scrapes in low risk work environments. Featuring a hard internal shell and a comfortable outer cover, it offers everyday protection for tasks where full safety helmets are not required.

## Key Information

Colors: ●

Size range: Standard

Fabric: Hard internal ABS/polypropylene shell for impact protection

## Key Features

- ▶ **Outer Cover:** Durable fabric exterior for comfort and style
- ▶ **Adjustment:** Rear adjustment strap for secure fit
- ▶ **Ventilation:** Ventilation holes for airflow and breathability
- ▶ **Weight:** Lightweight design for all day comfort
- ▶ **Standards:** Meets general bump cap performance requirements (basic impact protection)

## Applications

Designed for use in low-risk work environments, including warehousing, logistics, assembly lines, and general workplace activities, where basic head protection is sufficient.
