

EYE PROTECTION

SPROM Euro-spectacles | SP-EW-001

Description

Lightweight polycarbonate spectacles with anti-scratch and anti-fog protection. The SPROM Euro Spectacles provide premium eye protection against flying debris, particles, UV rays, and glare. Designed with impact-resistant polycarbonate lenses and integrated side shields, these spectacles ensure excellent optical clarity and long-lasting comfort. They are also compatible with other PPE such as helmets, hearing protectors, and half-mask respirators.

Key Information
