

CARRIER VISOR

SPROM Helmet Carrier Visor | SP-HF-005

Description

The SPROM Helmet Carrier Visor is a durable face shield providing full-face protection from splashes, flying debris, dust, and particles. It features a carrier frame that mounts directly to SPROM helmets with standard accessory slots, offering reliable coverage, excellent visibility, and comfort for industrial and construction use.

Key Information

Colors:

Size range: Standard

Fabric: High-impact clear polycarbonate visor

Key Features

- ▶ **Carrier Frame:** Mounts to SPROM helmets with 30 mm accessory slots
- ▶ **Protection Coverage:** Full-face protection from splashes, dust, debris, and low-energy impacts
- ▶ **Adjustability:** Tilting visor mechanism for easy raising and lowering
- ▶ **Compatibility:** Designed for SPROM helmets
- ▶ **Comfort:** Lightweight design with smooth edges
- ▶ **Standards:** Complies with relevant industrial face shield safety requirements

Applications

Designed for use in industrial and construction environments where full-face protection is essential, especially when integrated with a SPROM helmet.
