

EYE PROTECTION

SPROM Sporty-spectacles | SP-EW-002

Description

The SPROM Sporty Spectacles are stylish and lightweight, designed to protect the eyes against flying debris, particles, UV rays, and glare. Constructed with impact-resistant polycarbonate lenses, these spectacles combine comfort and durability with advanced anti-scratch and anti-fog coatings for improved visibility in demanding environments. They are also compatible with other PPE, including helmets, hearing protection, and respirators, ensuring seamless safety integration.

Key Information
