

PROTECTIVE EYEWEAR

SPROM Wrap Arounds Spectacles | SP-EW-003

Description

The SPROM Wrap Around Spectacles are designed for reliable eye protection against flying debris, dust, and mechanical hazards in industrial environments. These lightweight polycarbonate spectacles can be comfortably worn as overspecs with prescription eyewear, making them versatile for multiple work applications. The anti-scratch coated lenses ensure long-lasting clarity and durability, while the vented polycarbonate temples provide enhanced breathability and comfort.

Key Information

Colors:    

Weight : 40g

Fabric: Frame: Polycarbonate flexible et durable

Lens: Impact resistant polycarbonate

Key Features

- ▶ **Lens Material:** Impact resistant polycarbonate mono lens – anti scratch
- ▶ **Frame & Temples:** Polycarbonate with ventilation for airflow and comfort
- ▶ **Impact Resistance:** Class F – 45m/s minimum particle velocity (EN 166)
- ▶ **Optical Class:** 1 ($\pm 0.06D$ refractive power and astigmatism) – suitable for permanent wear
- ▶ **Refractive Power:** $\pm 0.06D$
- ▶ **Astigmatism Tolerance:** 0.06D
- ▶ **Lateral Vision:** Wide 120° field of view
- ▶ **Over Spectacle Friendly:** Can be worn over prescription eyewear
- ▶ **Compatibility:** Works with helmets, hearing protection & respirators
- ▶ **Standards:** CE EN166:2001 compliant; Quality system per ISO9001:2008
- ▶ **protective** eyewear for general industrial protection (not suitable for furnace/welding use)

Recommended Environment
