

Description

SPROMAX Disposable Coverall protects the user's torso, arms, legs, and head from fine particulate contact. It is made from lightweight spunbond polypropylene non-woven fabric, providing an economical solution for basic protection applications.

The coverall features elasticated wrists, legs, waist, and hood with a nylon front zipper for secure closure, and is breathable for comfort during use. It offers low fluid resistance and is suitable for general maintenance, indoor and outdoor work, and environments where protection against dust and fine particles is required.

Key Information
