

FALL PROTECTION

Twin Tools Lanyard | SP-FP-004

Description

The SPROM Twin Tools Lanyard is engineered for professionals working at heights who need to secure multiple tools at once. Its "Y" leg stretch-lanyard design allows workers to attach and carry two tools safely while keeping their hands free. Built from durable elasticated polyester webbing with a lightweight carabiner, it provides safety, comfort, and durability in demanding environments.

Key Information

Colors: ● ●

Size : 20mm polyester harness
